Program**

PHLEBOTOMY PROGRAM OVERVIEW

As a member of the health care delivery team, the phlebotomist generally works in a clinical laboratory under the supervision of a clinical laboratory technologist. The phlebotomist is primarily responsible for collecting blood specimens from patients/clients for the purpose of laboratory analysis. The phlebotomy courses are designed to provide students with information about the health care delivery system, collection of materials and equipment, venipuncture and capillary puncture techniques, specimen transport and processing techniques, quality assurance and safety techniques, basic concepts of communications, and medical and legal implications of blood collection. Students will be required to complete 72 hours of classroom and 120 hours of clinical experience in a health care environment. A criminal background from a designated agent and/or a drug screen may be required to complete the internship course.

EMPLOYMENT CHARACTERISTICS

Phlebotomists work in a variety of health care settings such as hospitals, clinics, rehabilitation facilities, long-term care facilities, extended care facilities and industry. The employment prospects for phlebotomists are excellent. Salaries and benefits vary according to experience, ability and geographic location. Completion of the program does not guarantee employment. Essential functions of the phlebotomist require the ability to:

- Distinguish color
- Adequate use of hands
- Communicate In English
- Exercise good judgment
- Maintain positive work conditions under stress
- To stand for long periods and move freely in small spaces

APPROVAL/ACCREDITATION AND CERTIFICATION

The phlebotomy program is approved by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) located at:

5600 N. River Rd
Suite 720
Rosemont, IL
60618-5119
(773) 714-8880
<http://www.naacls.org>

Students who successfully complete the Phlebotomy Program are eligible to sit for multiple certification examinations:

- The American Medical Technologist (AMT)
- The Board of Registry, American Society of Clinical Pathologist (ASCP)
- The American Society of Phlebotomy Technicians (ASPT)
- The International Academy of Phlebotomy Sciences (IAPS)
- The National Certification Agency for Medical Laboratory Personnel (NCA)
- The National Phlebotomy Association (NPA).
