# SOUTH SUBURBAN COLLEGE South Holland, Illinois

To: Board of Trustees

From: Tim Pollert

Date: November 4, 2020

Subject: Financial Report For The Period Ending September 30, 2020

Following is a Financial Summary Sheet and a set of Investment Reports for the above mentioned period. The first page is a Consolidated Statement of Revenues, Expenditures and Fund Balances for all funds. In the Operating Funds, a combination of the Educational and the Operations and Maintenance Funds, the following occurred:

| Monthly Revenue      | Year to Date Revenue      |
|----------------------|---------------------------|
| \$2,049,050.00       | \$7,259,392.98            |
| Monthly Expenditures | Year to Date Expenditures |
| \$1,812,434,09       | \$7,883,796,80            |

Activity for the month and year to date totals in all funds are as follows:

| Monthly Revenue      | Year to Date Revenue      |
|----------------------|---------------------------|
| \$3,317,578.35       | \$11,235,356.62           |
|                      |                           |
| Monthly Expenditures | Year to Date Expenditures |
| \$3,261,125.97       | \$12,135,053.45           |
| Net Monthly Position | Year to Date Net Position |
| \$56,452.38          | (\$899,696.83)            |

On page eight of the Investment Report you will see our investments for the period:

| Total Investments | Average Rate of Return | Basis Point Change from Last Month |
|-------------------|------------------------|------------------------------------|
| \$11,306,235.94   | 2.13%                  | 7                                  |

#### 204.02: Social Media Policy

## Purpose

Today's emerging communications technologies provide unprecedented opportunities for communication and conversation. Such opportunities must be handled responsibly and in support of South Suburban College institutional values.

This Policy applies to all members of the College community who participate in social media on behalf of South Suburban College on SSC affiliated social media sites. SSC affiliated social media sites must, in all cases, maintain the integrity of the institution.

#### Policies for Social Media

### A. Creating a Social Media Account

All South Suburban College social media accounts must be created and approved by the Department of Communication Services and Media Design. Official South Suburban College social media pages shall remain the property of SSC and may not be deleted or altered without approval from the Department of Communication Services and Media Design. An account not created by the Department of Communication Services and Media Design may not be utilized for official SSC business.

#### B. Social Media Platforms

This Policy applies to social media platforms including, but are not limited to, Facebook, Twitter, Instagram, YouTube, LinkedIn, Snapchat, Tumblr, Pinterest, blogs, and chat rooms.

#### C. Social Media Branding

All South Suburban College social media pages shall appropriately reflect the College.

#### D. Social Media Activity

All applicable laws, regulations and SSC policies shall govern activity on South Suburban College social media platforms. These regulations and policies include, but are not limited to, copyright, confidential and proprietary information, FERPA, HIPAA, Title IX, acceptable use of electronic resources, and anti-harassment and anti-discrimination policies. All members of the South Suburban College community are responsible for knowing these regulations and policies prior to participating on an SSC social media platform.

Content shared on a South Suburban College social media platform, including both language and graphics, shall be appropriate and relevant to its educational goals of the College. Posts shall not include any confidential, personal, or proprietary information. SSC news and announcements relevant to the particular social media site may be posted.

Violation of the Social Media Policy

South Suburban College's existing disciplinary processes will apply in the event of a violation of this Policy.

Misuse of social media accounts or sites that are not college-affiliated shall be governed by other college policies and/or professional responsibilities under existing contractual agreements.

| TOTAL Funds Requested:   |  | \$12,077,725  |

## **Project Scope:**

## Parking Lots and Roadways:

## Demolition:

The scope of the project involves but is not limited to the demolition/removal of existing asphalt paving and existing gravel base approximately 831,000 gross square feet, damaged concrete and curbing. The material will be taken off site. If possible, the material will be recycled and used on the project. Upgrade/improve existing subgrade drainage to divert rainwater runoff away from the new surfaces.

## **Drainage Systems:**

This would involve the installation of new piping systems to divert rainwater away from flood prone areas.

## Base System:

Re-contouring of the paving bases to permit proper run-off and some storm water release control.

## Asphalt and Concrete Curbing and Walkways:

Road, Parking lot surfaces and curbs will be installed according to current regulations and recommendations.

## Landscaping:

Areas incorporated within the parking lots for aesthetic as well as functional parts of the storm water management.

## Striping and painting:

Heavy-duty weather resistant paint will be applied.

## Mechanical Dumping System:

A new mechanical stormwater lift station will be installed to properly divert and discharge parking lot stormwater to two new detention ponds with a total of 79,000 gross square feet. Re-grading may be required. The two new ponds would detain stormwater and control the release of stormwater into the storm water system governed by the MWRDGC and possibly the Army Corp. of Engineers who may have jurisdiction over Schapps Slough (SSC North Creek). The new detention ponds will meet local and state guidelines for storm water management.

## Wetland Flood Plain Improvements:

Part of this work will consist of 480,000 gross square feet of new Wetland/flood plain development and expansion Schaaps Slough (North Creek). This will aid in controlled release rates of storm water run-off as well as maintaining the designated wetland to its proper state and area.

## **Lighting:**

Parking lot and roadway lighting will be improved with energy efficient fixtures to provide safe vehicular and pedestrian movement. Signage and emergency call boxes will be provided.

## **Project Justification:**

If project includes Missing Core Campus Components 1501.603 h)2); Program Considerations 1501.603 h)1); Prior ICCB or State obligations 1501.603 h)6) or Structural Considerations 1501.603 h)7), then please use this space for justification as this will greatly affect priority status.

The functional relationship between the project and instruction is the level of customer service provided to the students. Studies indicate that the physical environment impacts not only the institution's ability to market itself but also the comfort level of students who chose to attend the institution.

The parking lots and roadways are over 20+ years old. The soil beneath the lots and roadways is relatively unstable because of the fact that South Suburban College is located in an area of very high water table. Obviously this is not a good condition for developing asphalt paving systems. In addition, drainage systems for the area are inadequate to compensate for the storm water management required for this relatively impervious site. These surfaces have been subjected to extreme freeze / thaw cycles, plowing, salting, ultra violet radiation exposure and heavy traffic.

Due to age and conditions of the parking lots and roadways and what they have been subjected to, they are in need of constant repair.

Another related concern to developing the aforementioned parking lots is resolving the storm water management and detention requirements by law. These items need to be addressed and resolved in accordance with the ordinances of the Metropolitan Water Reclamation District of Greater Chicago (MWRDGC).

Many students and staff members have complained about the conditions of the road and parking lot conditions. Not only are the surfaces unsightly, they present dangerous conditions and tripping hazards. Pedestrian traffic has to navigate uneven surfaces and potholes. Even though remedial action to patch these adverse conditions is continually being applied, the deterioration is verging on or has attained failure.

The storm water management cannot be avoided any longer. Inadequate drainage conditions often lead to flooding. Potholes and rough surfaces can damage vehicles and be hazardous for pedestrians.

Additional Documentation Required Prior to Funding (this will be required before funding is released):

- For New Construction please see requirements referenced in Administrative Rules section 1501.603 b).
- For Remodel and Rehab please see requirements referenced in Administrative Rules section 1501.603 c).
- For Secondary Site Purchase please see requirements referenced in Administrative Rules section 1501.603 d).

## **Project Scope:**

The general scope of work entails the renovation of two biology labs and two physics labs. The current labs are outdated and have equipment that is over 20 years old. Their current layout and equipment does not meet today's high-tech standards for learning environments.

#### Demolition:

Remove existing ceilings, floor finishes, casework, lighting fixtures, workstations, loose furniture, plumbing fixtures, wall mounted boards as required to leave a clean room with just four walls.

## New Construction:

The new learning environment in each lab shall consist of four-chair student workstations with center isles for circulation. The new spaces will serve a dual function for lecturing and lab work. New ceilings with new dimmable LED lighting are appropriate for the working environment. Walls will be repaired and painted and a new chemical resistant epoxy floor system will be installed. New electrical power will be provided as required along with new plumbing, air and gas as needed for new student work stations. An ADA work station will be a part of the new student workstations. The existing HVAC system and temperature controls will be upgraded as required to provide comfort in the space. New fixed equipment such as base and wall cabinets with glass doors will be installed. A new teacher work station with the flexibility to lecture and instruct during lab sessions will also be installed. New markerboard(s) and a new smart board will be installed. Existing emergency shower and fume hoods will be upgraded or replaced.

## **Project Justification:**

If project includes Missing Core Campus Components 1501.603 h)2); Program Considerations 1501.603 h)1); Prior ICCB or State obligations 1501.603 h)6) or Structural Considerations 1501.603 h)7), then please use this space for justification as this will greatly affect priority status.

The success of a student is not only related to the amount of time spent studying outside the classroom but the quality and functionality of the learning environment they spend time in. Having hi-tech instructional environments not only benefits the students' prospects of succeeding, but allows them to be up to par with other learning institutions who invest in their facilities.

The current biology and physics labs have started to show wear and tear after 20+ years of use. Water, gas and air supply to existing workstations no longer work or are in need of replacement. Repairs can be costly and therefore overlooked. The teaching environment is outdated with the layout of the student work stations restricting one-on-one interaction with the instructor. Today's learning environment requires one-on-one interaction between the student and the instructor.

The lighting in the classrooms are less than ideal. Teachers are not able to dim the existing lights when presenting on smartboards or whiteboards using their laptops. The existing light fixtures are not energy efficient and are not LED and require maintenance. Dimmable light fixtures would solve the above problems.

The existing floor is vinyl composition tile and is not chemical resistant. Replacing the existing floor with epoxy flooring provide the chemical resistance should a student drop anything hazardous.

The existing workstations as mentioned are lined up in continuous rows and spaced close together limiting quick interaction with students and instructors. Egress is also hindered by the existing layout.

Some services to existing workstations are no longer operational and costly to fix. But the most important factor is that the exact conditions of piping that is not visible is unknown and can pose a hazard.

Casework is showing its age with the amount of use it gets. In house repairs have to be made due to hardware being difficult to obtain. Surfaces are worn and cannot be refinished. Casework was constructed to fit antiquated equipment and in some cases newer equipment will not fit in existing cabinets.

In order to attract new students and excite existing students, updated labs are a must. Many students base their college attendance on how up to date instructional facilities are. It is very easy for a prospective student to go to another local college just because their facilities are more modern. Updated facilities can also aid in obtaining top notch professors.

## Additional Documentation Required Prior to Funding (this will be required before funding is released):

- For New Construction please see requirements referenced in Administrative Rules section 1501.603 b).
- For Remodel and Rehab please see requirements referenced in Administrative Rules section 1501.603 c).
- For Secondary Site Purchase please see requirements referenced in Administrative Rules section 1501.603 d).

| PLANNING:  |  |                   |
| Other:   |  |                   |
| TOTAL Funds Requested:   |  | \$10,020,000      |

## Project Scope:

| Scope |
|-------|
|-------|

The scope includes but is not limited to the removal of all existing galvanized piping providing potable water supply to all areas of the building. Install new copper piping throughout the entire building. Copper piping not only is lighter than galvanized pipe which makes it easier to work with, saving on labor cost, but it is also easier to extend over long stretches without supports. It is also more economical. The advantages of replacing the galvanized piping with copper piping far outweigh the continued use of repairing the existing pipes. Copper piping is relatively non-toxic, does not suffer easily from corrosion, is durable making them cost effective over time and have a minimal impact on the environment.

## **Project Justification:**

If project includes Missing Core Campus Components 1501.603 h)2); Program Considerations 1501.603 h)1); Prior ICCB or State obligations 1501.603 h)6) or Structural Considerations 1501.603 h)7), then please use this space for justification as this will greatly affect priority status.

The health and well being of students, faculty and visitors within a learning institution should be a priority when it comes to the available water sources inside a building. Many unforeseen elements may be lurking in the water supply without the occupants being aware.

South Suburban College was built in 1970. Just like many buildings built during that time period, galvanized piping was used for domestic water supply. As galvanized pipes age, the zinc coating erodes and pipes corrode from the inside out due to the exposure of water. Lead buildup may occur over time as well. The corrosion in the pipes can cause rust buildup inside the pipes leading to low water pressure, uneven distribution of water, discoloration of the water and leaks to name a few. The existing galvanized piping has been leaking and breaking due to the weakness of the pipe walls. The aging pipes have become a burden on the College because the galvanized pipes require constant repairs and replacement. The replacement of the damaged pipes mostly are performed in small sections and seldom are long lengths of pipe replaced due to budget constrains. The most worrisome factor of aging galvanized pipes are the contaminants that can be transmitted from these pipes.

## Additional Documentation Required Prior to Funding (this will be required before funding is released):

- For New Construction please see requirements referenced in Administrative Rules section 1501.603 b).
- For Remodel and Rehab please see requirements referenced in Administrative Rules section 1501.603 c).
- For Secondary Site Purchase please see requirements referenced in Administrative Rules section 1501.603 d).

| Do project criteria meet Section 1501.603 a) of ICCB Administrative Rules?  Yes  No |

## SOUTH SUBURBAN COLLEGE BOARD AGENDA REQUEST

ITEM: FY21-VI.E

|   | Board Meeting Date: November 12, 2020  |  |  |  |
|---|--|--|--|--|
| BOARD COMMITTEE   | <u>FUNDING</u>   |  |  |  |
| Policy x Finance Architectural Other  | Operating Grant Funded College Capital Student Life Protection, Health and Special Levies Safety  PROPOSAL SUMMARY |  |  |  |
| On an annual basis, the Board of Trustees must establish the tax levy for the following year. The proposed amount of taxes to be levied by fund is attached. Since this amount is less than 105% of the final levy of the preceding year, the College is not required to hold a public hearing. This levy will be on file not less than 20 days prior to its adoption as required by law. |  |  |  |  |
| ESTIMATED COST OR BENEFIT   |  |  |  |  |
| (see attached)  |  |  |  |  |
| JI  | USTIFICATION OF ACTION   |  |  |  |
| These actions are necessary in order to comply with statutory requirements associated with the adoption of our tax levy for 2020 and this action supports Vision Statement, Strategic Direction 2, SSC.2.17 by providing an efficient, transparent and financially secure institution.  |  |  |  |  |
|   | MOTION   |  |  |  |
| To accept the estimated amount of taxes to be levied for 2020 as required by law.   |  |  |  |  |
| Are funds available in the budget? Is this related to any previous Board action? Is this part of a large project requiring additional funds? (Explain)  | Approvals:  No  No  No  Controller/I reasurer  Date  Appropriate Vice President  U/0/2020                          |  |  |  |
