

SSC Alumni/ Mentor Network

**Interested in having a mentor?
Read inside to find out more.**

For more information contact William Radtke at WRadtke@ssc.edu, (708) 596-2000 ext. 2649, or stop by Rm. 2264 on the SSC Main Campus.

What is the SSC Alumni/ Mentor Network?

The SSC Alumni/ Mentor Network is a group of current SSC employees, alumni, and community members who want to give back to SSC in the form of mentoring. We pair incoming SSC freshman with experienced and accomplished mentors to guide them through their first year at SSC and give valuable advice on how to succeed.

What are the benefits of having a mentor?

The first year of college can be an overwhelming experience and having a mentor will increase your chances of success. A mentor will give you valuable advice, keep you on track, and refer you to the many resources SSC has to offer. A mentor can also help you with your resume as you apply for jobs. Most importantly, being part of a support system will help ensure your success during and after college

How does it work?

Mentors and mentees will be paired based on shared career interests, hobbies, personality traits, etc. Once paired, mentors and mentees will meet regularly throughout the semester to check in, determine career goals, develop plans for achieving those goals, and discuss progress.

Students interested in receiving a mentor will be paired with a mentor after they fill out the Mentor request form. All Mentors commit to at least two semesters of mentoring.

We're here to support you!

Mission Statement:

Strengthening our community by supporting our students through a mentoring program designed to help students navigate through their educational and personal experiences at SSC.
