Corporate Training

Continuing, Corporate, & Community Education (C3)

C3 offers high-quality training to business and industry to help companies optimize their workforce. We provide traditional facilitator-led training, technology-based learning, or a combination of both to ensure customized training solutions that work!

Essential Skills

While technical skills are important, most often, employers cite essential skills as reasons for not hiring, not promoting, and even firing promising employees. With C3, expertise and an employer's investment in training can produce results.

- Time/Stress Management
- Train The Trainer
- Customer Service
- Communication
- Effective Teams
- Sales
- Leadership/Supervisor/Management
- Problem Solving

Computer Training & Applications

C3 offers computer workshops that range from introductory through advanced, as well as highly specialized software applications.

- MS Office Applications
- QuickBooks
- Project Management
- CAD
- Social Media

Manufacturing

The South Suburban region is a source of manufacturing jobs opportunities and career upgrades. C3 experts can train, retrain and remediate for employee skill improvement.

- Hazard Analysis and Critical Control Point (HACCP)
- ISO-Audit & Updates
- Lean Solutions
- Maintenance
- Welding-Stick, MIG & TIG
- Safety Quality Forklift
- Manufacturing Skill Standard Council (MSSC)
- PLC
- Blueprint Reading
- OSHA

Human Resource Services

Human Resources departments handle many responsibilities. C3 has the resources you need to stay on top of essential HR functions.

- Performance Evaluations
- Diversity/Discrimination/Harassment
- Policy and Procedure Manuals
- Hiring and Onboarding

Computer Proficiency

BUS E49—Computers for Seniors

Fee \$149

If you are a senior, this course is specifically designed to teach you. If you need to know how to use your computer and are not a senior, that's OK. This can help you as well. We will cover basic computer skills: email access, sending documents, navigating the internet, etc. Attaching photos with email as well and using Google to search and more. No grandparent left behind...bring a friend!

BUS E49 701 10:00-12:00p T OFC-5370 Evans 02/3-3/31

BUS E61—Computer Security

Fee \$159

Computer virus removal and security concepts: This class will help you better understand how to track and remove viruses and malware from your computer. It will help you keep your computer safe and running problem-free. You will have the confidence not to get caught in a phishing scam. The computer security course focuses on security concepts at a personal level, not a corporate level, where security policies and procedures must be followed. You will learn how to lock down your system and create a recovery CD/FLASH DRIVE for backups of your system to external drives. Note: You will need to bring a laptop for this course so that you can fully participate.

BUS E61 701 12:30-2:30pm T OFC-5370 Evans 02/3-3/31

BUS E62—Website Wordpress

Fee \$139

This class will show you how to create a website for your business or personal needs utilizing WordPress, along with the necessary skills to keep your site updated. You will learn how to create a site in WordPress and learn how to take payments as well, using Zelle, PayPal, or the integrated system using GoDaddy, if indeed your hosting provider is GoDaddy. Assignments will be given out after each class, and you must practice them to fully get what you want out of the class. You can bring your laptop if you have one. And you will need web server space as well. I will instruct you in how to acquire this.

CMP E11—Web Page Design Using HTML

Fee \$159

This class will teach you the basics of HTML and CSS. I will help you better understand how to create a web page or two in code and use a notepad or any text editor. HTML uses many items, which are elements, tags, and attributes, to organize text, images, links, and other multimedia elements. Although it defines the content and structure, the styling is typically handled by CSS, which we will also cover. Albeit this course is at a level of understanding for the beginner, I can cover more advanced topics in this area if time and students permit it. It's also an excellent class for refreshers for those who have taken HTML in the past and need a refresher course, either HTML or CSS. If you have a laptop, you may bring it. If you ever wanted to learn how to code, starting here is the first step, and it's fun!

CMP E11 701 6:15-7:45pm T OFC-5370 Demitro 02/3-3/17

CMP E35—Internet Strategies for Business

Fee \$159

In this entrepreneurship class for the Internet strategies for business, you will focus on several points, including the entrepreneurial mindset. We will discuss embracing risk-taking and the target audience. We will touch base on the financial status of starting your online business. We will also discuss how to go about getting a business website, as well as the cost of one versus creating your own. You can do and learn in my other class, which offers WordPress, and take both courses. Time management is a vital topic we will also discuss. This is key for success.

Music Programs

MUS E09—Introduction Class Piano I

Tuition \$58 Fee \$54

This is a college credit class with limited seating for non-credit students. The minimum age recommended for the class is 18.

This course is designed for the adult beginner who wishes to learn the piano by playing chords quickly with both hands, using familiar and tuneful songs. Progress in learning is proportional to daily practice, so having a piano or keyboard at home is helpful. The course aims to enable the student to play easy pop and country music at the first reading.

MUS E95—Ear Training and Sight Reading I

Tuition \$58 Fee \$54

This is a college credit class with limited seating for non-credit students. The minimum age recommended for the class is 18. First aural skills course for all music majors in the four-semester sequence. This course is also known as an applied music theory course, in which students apply what they learn in music theory to ear training and sight singing. It consists of two essential parts: singing and writing. The first portion contains various singing exercises that help students improve their proficiency in tonal retention, visual recognition and tonal reference, and vertical perception. The drills include tonicization patterns, intervals, tonal indexing, memorized melodies, dyadic and harmonic progression. Techniques of sight-singing will also be taught. The second part addresses the speedwriting of memorized melodies and the dictation of interval, rhythm, melody, and harmony.
